Annual Review of Nutrition
Volume 3, 1983

CONTENTS

(Note: Titles of chapters in Volumes 1–3 are arranged by category on pages 477.)

PREFATORY ESSAY

A Feast for Aesculapius: Historical Diets for Asthma and Sexual Pleasure, *Madeleine Pelner Cosman* 1–33

PROTEINS, PEPTIDES, AND AMINO ACIDS

Carnitine, *Peggy R. Borum* 233–59

VITAMINS

Niacin, *LaVell M. Henderson* 289–307

INORGANIC NUTRIENTS

Biological Activity of Selenium, *Raymond F. Burk* 53–70

Bioavailability of Trace Mineral Elements, *Richard M. Forbes and John W. Erdman, Jr.* 213–31

Physiological Ligands for Copper and Zinc, *Robert A. DiSilvestro and Robert J. Cousins* 261–88

LIPIDS

Absorption and Metabolism of Dietary Cholesterol, *Scott M. Grundy* 71–96

CLINICAL NUTRITION

Nutrition in Renal Failure, *Mackenzie Walser* 125–54

Ischemic Heart Disease and Lipids in Blood and Diet, *R. A. Stallones* 155–85

The Endocrine Responses to Protein-Calorie Malnutrition, *Dorothy J. Becker* 187–212

Endemic Goiter and Cretinism at the Dawn of the Third Millennium, *Josip Matovinovic* 341–412

Protein Metabolism and Injury, *J. M. Kinney and D. H. Elwyn* 433–66

MATERNAL/INFANT NUTRITION

The Placenta in Nutrition, *Hamish N. Munro, Sydne J. Pilistine, and Michael E. Fant* 97–124

NUTRITIONAL ANTHROPOLOGY

Food Faddism, Cultism, and Quackery, *William T. Jarvis* 35–52

METHODOLOGY

Stable Isotope Methods for Nutritional Investigation, *Dwight E. Matthews and Dennis M. Bier* 309–39

FOOD/NUTRITION SURVEYS

Food Consumption by Individuals in the United States: Two Major Surveys, *Patricia B. Swan* 413–32

INDEXES

Subject Index 467

Cumulative Index of Contributing Authors, Volumes 1–3 476

Cumulative Index of Chapter Titles, Volumes 1–3 477

Special Announcement: New From Annual Reviews

Some Historical and Modern Aspects of Amino Acids, Fermentations and Nucleic Acids, Proceedings of a Symposium held in St. Louis, Missouri, June 3, 1981, edited by Esmond E. Snell. Published October, 1982. 141 pp.; softcover; $10.00 USA/$12.00 elsewhere, postpaid per copy
